

SEIF ELDIN ELMUSELMANI

Computer Science Senior — Math & ICT Tutor

📍* Zagazig, Egypt ✉ eldenseif645@gmail.com [in linkedin.com/in/seif-elmuselmani](https://www.linkedin.com/in/seif-elmuselmani) ☎ +20 122 381 7860

Objective

Senior Computer Science student with a strong academic background in Mathematics and Logic. Passionate about simplifying complex Math and ICT concepts for younger students. Seeking to leverage technical expertise to help students achieve academic excellence.

Education

Faculty of Computers and Information, Zagazig University

Bachelor of Computer Science

Cumulative Grade: **Very Good**

Zagazig, Egypt

Sep. 2022 – Jul. 2026 (Expected)

Key Coursework: **Calculus, Linear Algebra, Probability & Statistics, Logic Design.**

Digital Egypt Pioneers Initiative (DEPI)

Full Stack .NET Track Scholarship

Remote

2025 – Present

Teaching & Professional Experience

Freelance Private Tutor

Math & ICT Instructor for Primary/Prep Students

Zagazig, Egypt

Sep. 2022 – Present

- Simplifying Mathematics concepts (Algebra, Geometry, Arithmetic) for primary and preparatory students.
- Teaching basics of Computer Science and ICT, including hardware basics and safe internet usage.
- Helping students improve their grades by adopting interactive and logic-based teaching methods.
- Introducing kids to programming logic using Scratch and simple algorithms.

Grab El-Hawy Store

Operational Assistant

Zagazig, Egypt

Dates – Present

- Developed strong communication and patience skills through dealing with diverse customers daily.
- Managed financial transactions with high accuracy and responsibility.
- Balanced full-time Engineering studies with a demanding work schedule, demonstrating time management.

Skills

Teaching Skills: Simplifying Complex Concepts, Patience, Logic-Based Explanations, Student Motivation

Subject Knowledge: Mathematics (Algebra, Calculus), ICT, Physics, Programming (C#, Python basics)

Technical: C#, .NET 8, SQL, System Analysis (UML), Problem Solving

Languages: Arabic (Native), English (Professional / B2)

Engineering Projects

Nabd - Clinical Decision Support System | AI & Backend

Graduation Project

- Built a smart medical diagnosis system using AI and .NET, demonstrating strong logical analysis capabilities.
- Designed complex database structures, applying advanced mathematical logic to real-world problems.
