

SEIF ELDIN ELMUSELMANI

.NET Backend Developer

📍* Zagazig, Egypt ✉ eldenseif645@gmail.com 🌐 linkedin.com/in/seif-elmuselmani 🔗 github.com/seif-elmuselmani 📞 +20 122 381 7860

Education

Faculty of Computers and Information, Zagazig University

Zagazig, Egypt

Bachelor of Computer Science

Sep. 2021 – Jun. 2025 (Expected)

Cumulative Grade: **Very Good**

Digital Egypt Pioneers Initiative (DEPI)

Remote / Hybrid

Full Stack .NET Track Scholarship

2024 – Present

Technical Skills

Languages: C#, SQL, HTML/CSS, JavaScript (Basics)

Frameworks: .NET 8, ASP.NET Web API, Entity Framework Core, SignalR, LINQ

Databases: Microsoft SQL Server, SSMS

System Analysis: UML Modeling (ERD, Class Diagrams, Sequence Diagrams), Database Design

Design Tools: UI/UX Principles, Figma (Basics)

Tools & Concepts: Git, GitHub, Postman, OOP, SOLID Principles, Clean Architecture, JWT

Spoken Languages: Arabic (Native), English (Professional Working Proficiency / B2)

Projects

Nabd - Clinical Decision Support System | ASP.NET Core, ML.NET

Graduation Project

- Architected a scalable backend for an AI-powered medical diagnosis system using **ASP.NET Core Web API**.
- Designed a robust database schema using **Entity Framework Core (Code-First)** to manage complex patient-doctor relationships.
- Integrated Machine Learning models to assist doctors in making accurate clinical decisions.

Shryan - Healthcare Management Platform | .NET 8, Clean Arch, SignalR

DEPI Grant Project

- Developed a high-performance backend system implementing **Clean Architecture** to ensure scalability and separation of concerns.
- Implemented real-time features and notifications using **SignalR** for enhanced user engagement.
- Applied **Repository Pattern** and **Unit of Work** to optimize data access and maintain code quality.

FitTrack - System Analysis & UI/UX Design | UML, Database Design, Figma

Personal Project

- Designed detailed **UML Diagrams (ERD & Class Diagrams)** to model complex database relationships and system architecture.
- Created high-fidelity **UI/UX prototypes** focusing on user experience, accessibility, and seamless application flow.
- Analyzed business requirements to define system functional specifications and data validation rules.

Experience

Grab El-Hawy Store

Zagazig, Egypt

Operational Assistant & Cashier

Dates – Present

- Managed daily financial transactions and reconciled accounts with high accuracy under high-pressure environments.
- Coordinated with suppliers to manage inventory levels and monitored market pricing trends and promotional offers.
- Demonstrated resilience and strong time management by balancing a demanding 6-day work week alongside full-time CS studies.

Relevant Coursework
