SUMMARY

Analytical Full Stack Developer (**.NET & MEAN Stack**) and winner of the **DEPI national competition**. Experienced in backend development, system analysis, and clean architecture. Combines strong technical expertise with a proven background in **teaching and mentoring** as a former High School Mathematics Teacher. Highly communicative and adaptable, eager to leverage software engineering skills and educational experience to simplify complex concepts and empower the next generation of tech learners.

EDUCATION

Bachelor of Computer Science

Faculty of Computers and Information, Zagazig University

Sep. 2022 – Jun. 2026 (Expected)

Cumulative Grade: Very Good

PROFESSIONAL EXPERIENCE

Private Mathematics Tutor (High School)

Self-Employed

2023 – 2024

Zagazig, Egypt

- Taught comprehensive mathematics curriculums to high school students, specializing in simplifying complex problem-solving.
- Evaluated student progress, designed assessments, and fostered an engaging learning environment to improve overall comprehension.

MEAN Stack Developer (Professional Training)

National Telecommunication Institute (NTI)

Feb. 2026 – Present

Offline

- Intensive 210-hour program focusing on full-stack development using **JavaScript, TypeScript, and Node.js**.
- Developing and debugging complex server-side applications with **MongoDB** and **Angular**.

Core Team Member (Backend & System Analysis)

Digital Egypt Pioneers Initiative (DEPI)

Jul. 2025 – Jan. 2026

Hybrid

- Graduated with Honors and secured **1st Place** among nationwide participants for technical superiority.
- Designed and maintained scalable backend systems using **.NET 8** and **Clean Architecture**.

Assistant Manager & Head Cashier

Grab El-Hawy Store

2024 – 2025

Zagazig, Egypt

- Promoted from Cashier to Head Cashier and Assistant Manager through demonstrated reliability and leadership.
- Managed daily store operations, handled cash flow, and developed strong communication and problem-solving skills.

Freelance Software Developer

Self-Employed

2024 – Present

Zagazig, Egypt

- Developed custom web applications and provided tailored technical solutions for independent clients.
- Provided technical consultancy in system analysis, database design, and codebase debugging using **.NET** and modern web technologies.

KEY PROJECTS

Shryan (Comprehensive Healthcare Platform) — *.NET 8, Clean Architecture, SQL Server*

- **Ranked 1st Place** in the Digital Egypt Pioneers Initiative (DEPI) nationwide competition.
- Architected a full-scale ecosystem connecting pharmacies and clinics, ensuring high system scalability.

Nabd (AI-Driven Diagnosis System) — *ASP.NET Core, ML.NET, Python, React*

- **Project Lead** for the senior graduation project, managing a technical team to build an intelligent healthcare platform.
- Engineered a centralized API and database schema using **EF Core Code-First**.

Kshaf (Sports Talent Scouting Platform) — *MongoDB, Express.js, Angular, Node.js*

- Developed a full-stack scouting application at NTI using the **MEAN Stack**.
- Implemented complex search and filtering algorithms to match talent scouts with athletes efficiently.

TECHNICAL & SOFT SKILLS

- **Languages & Frameworks:** C#, JavaScript (ES6+), TypeScript, .NET 8, ASP.NET Web API, Node.js, Angular, React.
- **Databases & Tools:** MS SQL Server, MongoDB, Git/GitHub, Postman.
- **Educational & Soft Skills:** Technical Mentoring, Simplifying Complex Concepts, Communication, Leadership, Problem Solving.
- **Languages:** English (Professional Working Proficiency), Arabic (Native).
