SUMMARY

Passionate Programming Instructor and Computer Science Educator with a strong foundation as a Full Stack Software Engineer. Dedicated to empowering international learners by simplifying complex coding logic, computer science fundamentals, and AI concepts. Combines award-winning technical expertise (1st Place nationwide in the Egyptian government's elite tech initiative, DEPI) with extensive experience managing dynamic online classrooms. Proven ability to bridge the gap between academic theory and practical development, guiding students to build real-world tech projects.

EDUCATION

Faculty of Computers and Information, Zagazig University

Jun. 2026

Bachelor of Computer Science

Cumulative Grade: Very Good

PROFESSIONAL EXPERIENCE

Freelancing & Job Coach

Aug. 2026 – Present

Freelance Yard (in partnership with DEPI)

Remote

- Guide DEPI trainees on freelancing fundamentals, professional profile building, and client acquisition strategies.
- Track progress and mentor participants to secure practical freelance gigs and generate online income.

Main Tutor (Technical Instructor & Mentor)

Jun. 2026 – Present

iSchool

Online & Offline

- Deliver engaging and intensive programming, computer science, and AI sessions for diverse learning groups.
- Simplify complex logical structures and algorithms into age-appropriate, interactive educational modules.
- Evaluate student projects, provide constructive code reviews, and mentor learners to adopt best practices in debugging.
- Manage dynamic remote educational environments, utilizing interactive teaching tools to drive technical engagement.

Core Team Member (Backend & System Analysis)

Jul. 2025 – Jan. 2026

Digital Egypt Pioneers Initiative (DEPI) – Elite National Program

Hybrid

- Graduated with Honors and secured 1st Place among nationwide participants, validating high-level technical proficiency.
- Designed and maintained scalable backend systems using .NET 8, acting as a technical reference point within the team.

MEAN Stack Developer (Professional Training)

Feb. 2026 – May 2026

National Telecommunication Institute (NTI) – Government Tech Scholarship

Offline

- Completed an intensive 210-hour full-stack program focusing on JavaScript, TypeScript, Node.js, and Angular, building robust web applications.

Freelance Software Developer

2024 – Present

Self-Employed (Local & Gulf Clients)

Remote

- Develop custom web applications and provide technical consultancy in system analysis, database schema design, and bug fixing.
- Act as a technical advisor for clients, translating business requirements into scalable software architecture.

Private Mathematics Tutor (High School)

2023 – 2024

Self-Employed

Zagazig, Egypt

- Taught mathematics to high school students, honing the ability to explain complex logical reasoning and algorithmic thinking foundational to computer science.

KEY TECHNICAL PROJECTS & LEADERSHIP

- **Shryan (Healthcare Platform) – 1st Place Winner DEPI:** Architected a full-scale ecosystem connecting pharmacies and clinics using .NET 8 and Clean Architecture.
- **Nabd (AI-Driven Diagnosis System) – Project Lead:** Managed a technical engineering team to build an intelligent platform using ASP.NET Core and Python. Led sprint planning and task delegation.
- **Kshaf (Sports Talent Scouting Platform):** Developed a full-stack scouting application using the MEAN Stack (MongoDB, Express.js, Angular, Node.js), implementing advanced search algorithms.

TECHNICAL & TEACHING SKILLS

- **Instructional & Mentoring:** Online Teaching (Zoom/Teams), STEM Education, Student Engagement, Code Review, Debugging Guidance, Socratic Method.
- **Programming Languages:** Python, C#, JavaScript (ES6+), TypeScript, HTML/CSS.
- **Frameworks & Databases:** .NET 8, Node.js, Angular, React, MS SQL Server, MongoDB.
- **Tools & Concepts:** Git/GitHub, Clean Architecture, RESTful APIs, OOP, SOLID Principles.
- **Languages:** English (Fluent / Professional Working Proficiency), Arabic (Native).
